

Dalla Corte One Grinder.

The ONE grinder to rule them all.

Dalla Corte's DC ONE offers the ultimate in consistent grind and dose with temperature control, automatic cooling and exact grinding parameters.

Be it in combination with the Dalla Corte Evolution or the Pro, Dalla Corte ONE blends in effortlessly as a component of the Dalla Corte System providing the bedrock for extraction perfection.

Grinder Control System.

The unique linked Grinder Control System with automatic grind regulation and collaborative adjustment manages all recipe variables to deliver exacting coffee standards.

Precision Grinding.

Precision grinding through the automatic burr control system (0.01mm graduation in burr adjustment) preserves roasted coffee and obtains the perfect 'cut' of the bean. Precise grinding times delivered up to three decimal places and anti-static blades reduce coffee clumping.

Temperature Control.

Automated cooling system to ensure ground coffee remains at the optimum temperature and Burrs from overheating.

Auto Dose Recognition.

Dosing rods recognise single and double shot portafilters ensuring correct dose.

	DC ONE
Dimensions (mm)	1.235 d.300 h.570
Weight (kg)	12
Hopper Capacity (g)	15,0
Grinding Capacity (G/sec)	4
Power (Watt)	500
